VALUE ADDITION

Specialities of e-bhandaran(WMS)

Optimized Capacity Utilization and Lower Operating Expenses

Inventory Visibility

It provides visibility of accurate, real-time inventory levels of stocks.

Billing Management

It enables BSWC to employ activity-based billing, to track all operations

Enabling Automation

Facilitate the transition from paper-based work to digital activity

Auditing & Security

Generates an audit trail that associates certain personnel with specific transactions

Manual to WMS-Reporting

More than 30 registers/ reports are now generated by WMS
